Continuous Slew	Max torque	Max radius	Min radius	Auger speed	Hole depth	Single fall rating	Double fall rating	Max hook height	Max reach	Max boom angle	Min boom angle
360°	16,000Nm	8.35m	4.75m	20-60rpm	3m	5T	10T	15m	13.5m	72°	-15°

Features and Benefits:

Lighter, stronger construction with high tensile steel and optimised boom design, for greater payloads.

- High capacity load charts with three stabilisation modes gives operators flexibility at the jobsite.
- High capacity hydraulic system includes load sensing pump, 255 litre oil tank with oil cooler and filtration as standard, giving reliable hydraulic power.
- Heavy duty steel tray with anti slip surface, rope rails, inbuilt tie down points and pole carriage system, ensures the vehicle is strong and versatile for every application.
- Inbuilt storage for spare augers, pole tamper, tools and dunnage, enables operators to keep work area clear and gear secure.
- Robway 8510 load management system designed and supported in Australia. For real confidence in safety for fleet owners and operators.

The Strong Performer

With an advanced 6 sided boom design, the TIDD Crane Borer offers enhanced lifting and boring capacity, and a lighter overall structure for increased payload, making this crane borer a strong performer. Through design consultation with the power industry the TIDD Crane Borer includes features such as the hydraulic / mechanical auger stow mechanism that increases safety and reliability. The feature packed TIDD Crane Borer delivers for operators and fleet managers a high quality beyond expectation!

Optional Accessories

- Pole jack and pole tamper tools
- Various types and sizes of augers
- Screw anchor adaptor
- Kelly bar
- Work and hazard lighting
- RAG lights and much more
- Contact us for a detailed specification.

16mm non rotating hoist rope, with anti two block interlock and grooved drum for longer rope life

Double acting retractable pole jaws to stabilise poles of 150mm to 400mm diameter

High torque, variable speed auger motor suitable for up to 900mm augers

Suitable for multiple brands of cab chassis – 6x4, 6x6, 8x4, 8x8

Six sided boom profile maximizes load chart and boring stiffness

Fully proportional joystick controls at ergonomic operator station

Hydraulically powered stow system for auger increases safety

Multi-position (0%, 50%, 100%) high capacity outriggers gives multiple load charts

600 litre inbuilt water tank with pump and hose reel delivers water direct to worksite

Hydraulic tool hose reel standard with 25 lpm for optional tamper and pole jack

TIDD

CRANE BORER

After Sales Support

TRT is proud to manufacture the TIDD Crane Borer for Australia, and we are committed to supporting our product for its warranty and beyond. The team of highly experienced TIDD service technicians are available to assist operators, fleet owners and workshops with training, advice, documentation and product upgrades. When you chose TRT it's ...for the long haul!

Leading Engineering Experience

We have been designing and manufacturing heavy equipment, cranes and trailers for over 50 years, with real expertise in crane design, we are the home of the TIDD Crane, 25t pick and carry crane. The new TIDD crane borer has been designed based on industry feedback, drawing on technology developed in other crane products manufactured in-house. The unique six sided boom profile allows for maximum productivity and provide years of reliable service, giving the TIDD Crane borer a leader in its class!

Parts

TRT stocks genuine spare parts for the TIDD Crane Borer. We can easily arrange overnight freight for all your spares and service items to ensure your borer is returned to service with minimal downtime.

TRT reserves the right to alter specifications without notice. Photographs and drawings in this document are for illustrative purposes only. Product shown in photos contains optional features. TRT in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. Please contact us for current and detailed specifications. TRT Australia Pty Ltd / Tidd Ross Todd Ltd is the manufacturer of the TIDD Crane Borer.
